- weekly summary #3

last week's progress

schlafenhase

Jose Acuña

- end work on home view
- initial work on spreadsheet analysis

Alejandro

- weekly summary #3 design
- mobile app finishing touches
- integrate login system with API

Kevin & Jose S.

- services API implementation
- connection between services API & database

Jesús

- web app tables with restrictions
- weekly summary #3

duh!

schlafenhase

possible risk assessment

during a group meeting, we realized login information wasn't stored anywhere.

this wasn't specified in the requirements.

schlafenhase

possible risk
mitigation

the proposal to add an extra table to store login info was approved

Jose Sánchez and Kevin will be in charge of correcting database and API

Jesús will incorporate the table in web app

next week's task plan

schlafenhase

Jose Acuña

- report downloads in web app

-final work on spreadsheet data analysis

Alejandro

- mobile app testing

- user manual & deployment guide

- documentation format

Kevin & Jose S.

- full table testing

- report generation in API

- API-database connection final details

Jesús

- full table testing

- organize admin and health center view

- general project documentation

we'll be right back!
