schlafenhase

here comes the second wave.

When we introduced Pandemica just a few weeks ago, we were completely blown away by the community response. Many people expressed their thanks through social media and directly congratulated us on our incredible achievement.

The team at Schlafenhase was thrilled by the way people around the world were using our tool to follow the pandemic in real-time and manage their health center in a synchronized, efficient way.

For the development of Second Wave, we challenged ourselves to upgrade every aspect of the experience.

We are very proud of this release, with incredible new features such as responsiveness, a more optimized system, and especially health center+.

managing a health center+	9-14

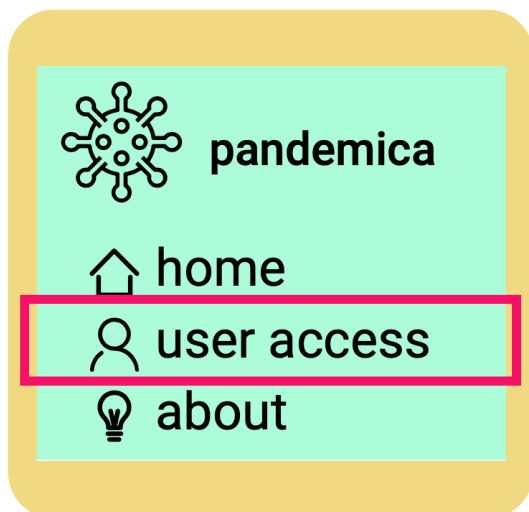

health center+ for patients

The headlining feature of **Pandemica Second Wave** is **health center+**. This is a quick start guide for individual patient use.

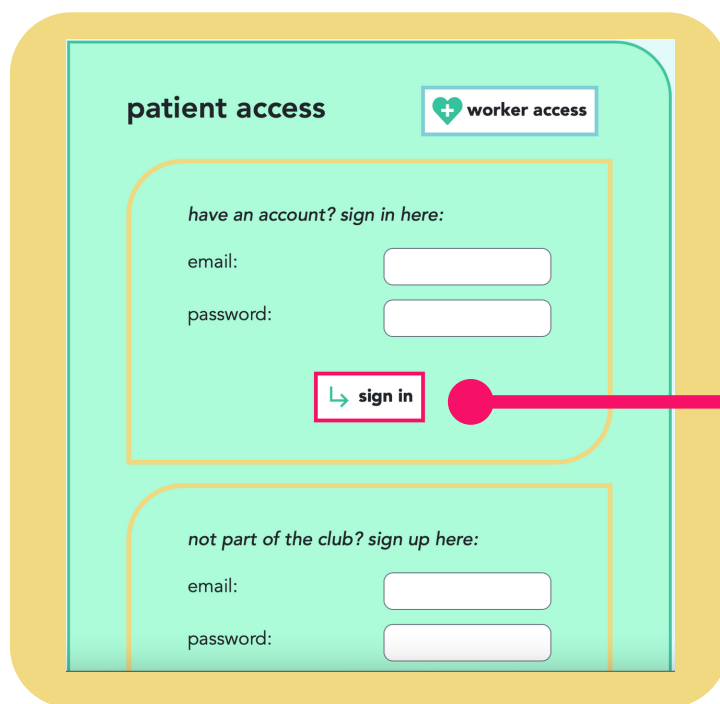

First, a small recap of the original website controls. From the home view, you can hover your cursor (or tap on mobile devices) over the **navigation selector** and the **country selector**.

navigation selector

- From the [navigation selector](#), click or tap on  [user access](#) to navigate to the sign-in/sign-up screen.

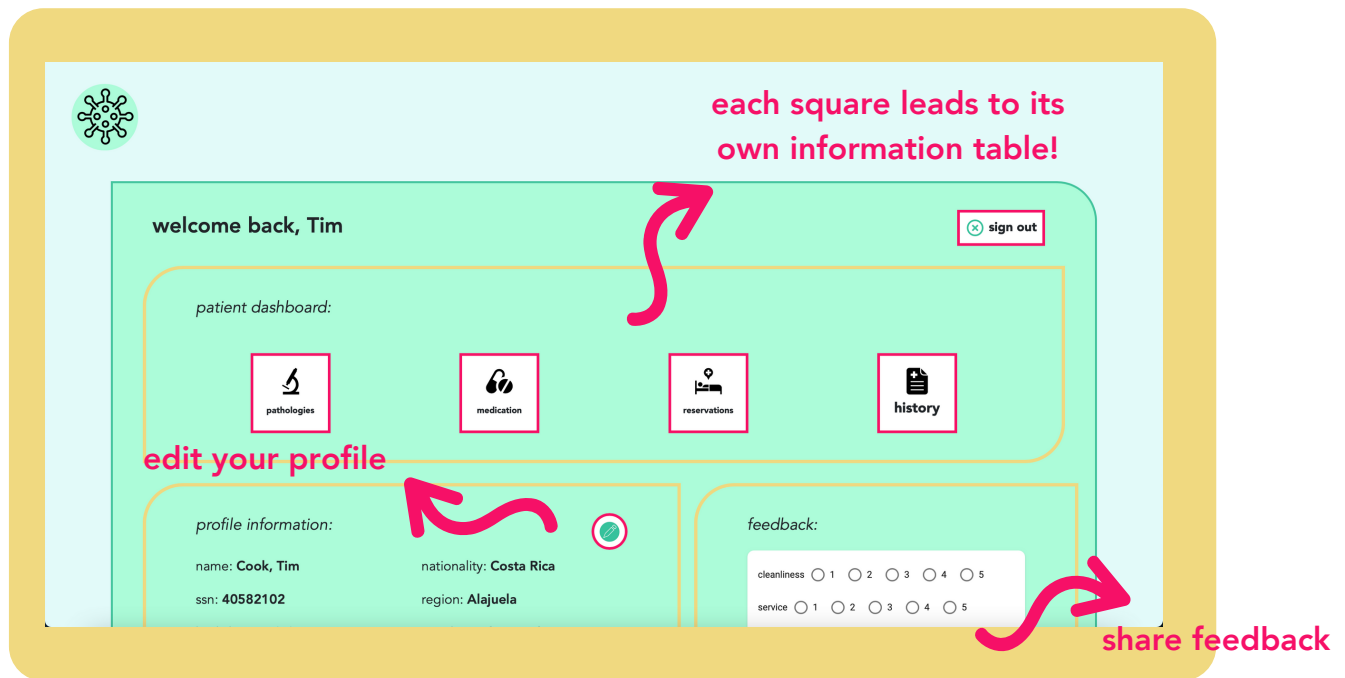

patient access screen

if you were provided an account by the team or a health center that supports [health center+](#), you may enter your email and password and click or tap  [sign in](#).

If you don't have an account yet, scroll down and fill the sign up form. Once that's done, click or tap.  [sign up](#). You'll be registered with your health center of choice.

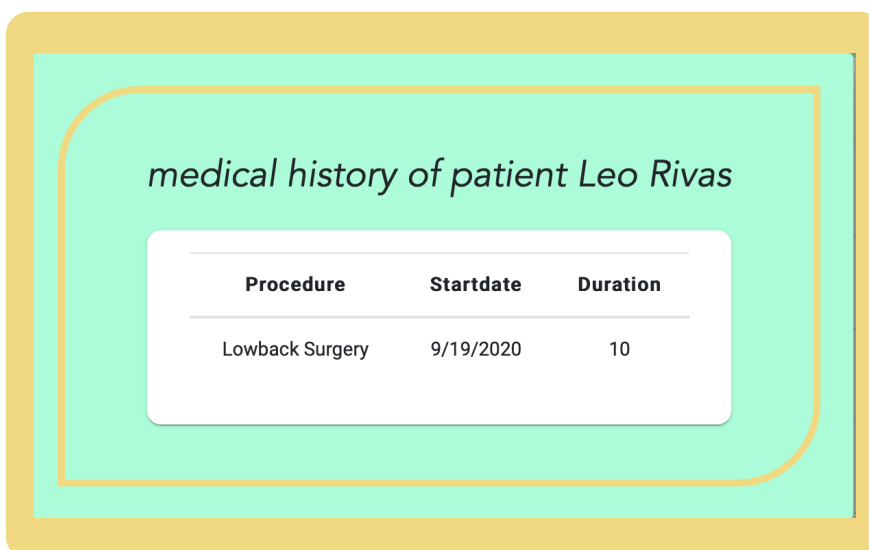

USER DASHBOARD

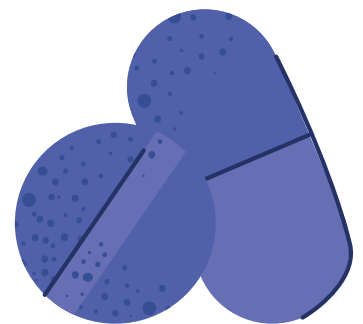

user dashboard view

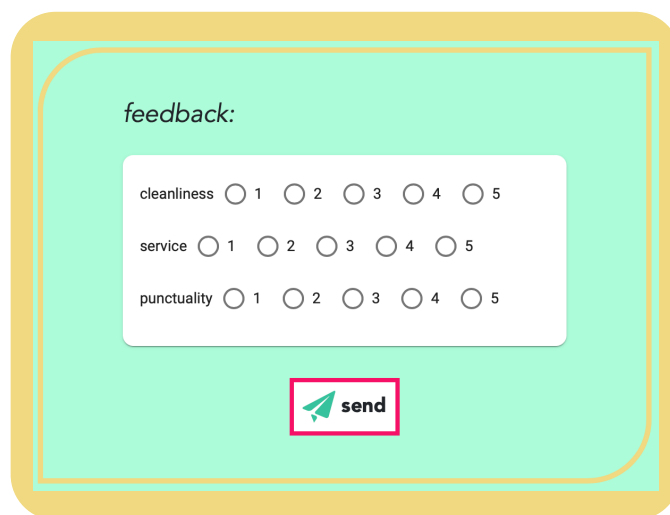

This is your individual patient dashboard. Here, you can click or tap on each square button to see your personal information and status of each element.

A pop-up will open to show a table with the requested data. Click or tap outside of it to dismiss it.

example: patient history pop-up window

A feedback card with a light green background and a yellow border. It contains the text "feedback:" followed by three rows of rating options. Each row has a label and five radio buttons numbered 1 to 5. The labels are "cleanliness", "service", and "punctuality". At the bottom right, there is a red button with a white paper plane icon and the word "send".

feedback:

cleanliness ☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5

service ☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5

punctuality ☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5

 send

feedback card

- At the lower right side you'll find a feedback card. To rate your health center, click or tap on the buttons to rate each aspect of the experience.
- Choose from 1 (least) to 5 (best) for **Cleanliness**, **Service** and **Punctuality**.
- Click or tap on  **send** to validate the report. This feedback is completely anonymous.

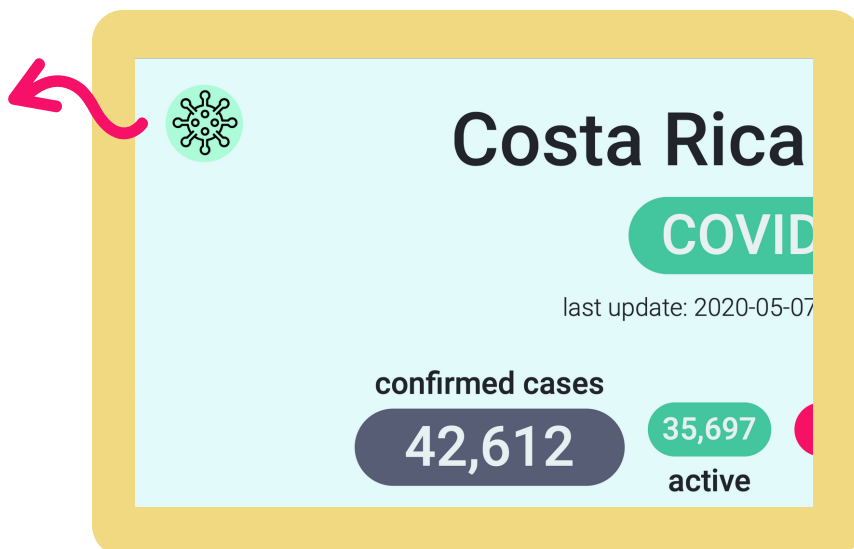

health center+ for workers

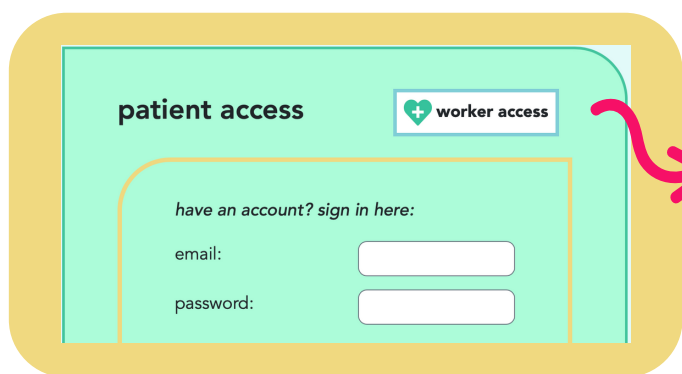

One of the coolest features about [Pandemica Second Wave](#) is the seamless role authentication system. We feature an incredible dashboard where doctors can manage their patients with ease, as well as an updated health center dashboard, with exclusive features to health centers that subscribe to our amazing [health center+](#) program.

To begin, you'll need to apply to an account. If you want to register as a health center, contact the Schlafenhase team and we'll happily help you get everything set up. Once you sign up with us, you're free to add as many doctors to the platform as you'd like. If you already have account, you may easily navigate to the worker access page and enter your account details.

navigation
selector

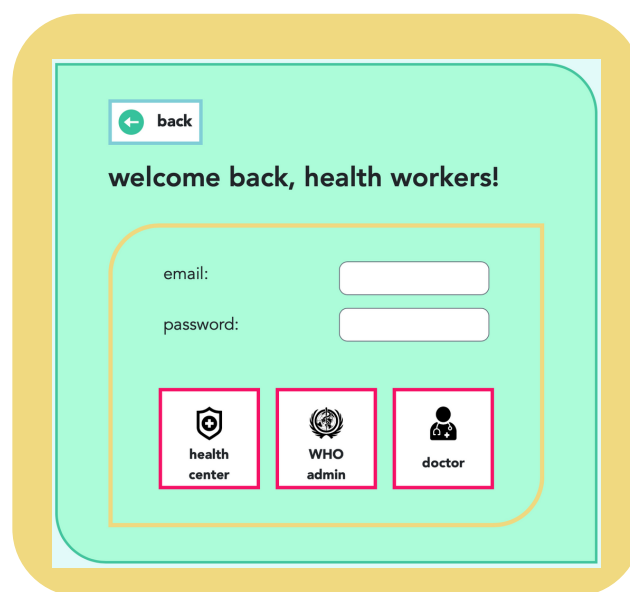

home view - top left corner

patient access screen

- Enter your email and password account details.
- Next, click on the corresponding red bordered button to sign in as a **doctor** or as a **health center**.

- Click or tap on **worker access**. You'll be redirected to another screen.

worker access screen

DOCTOR DASHBOARD

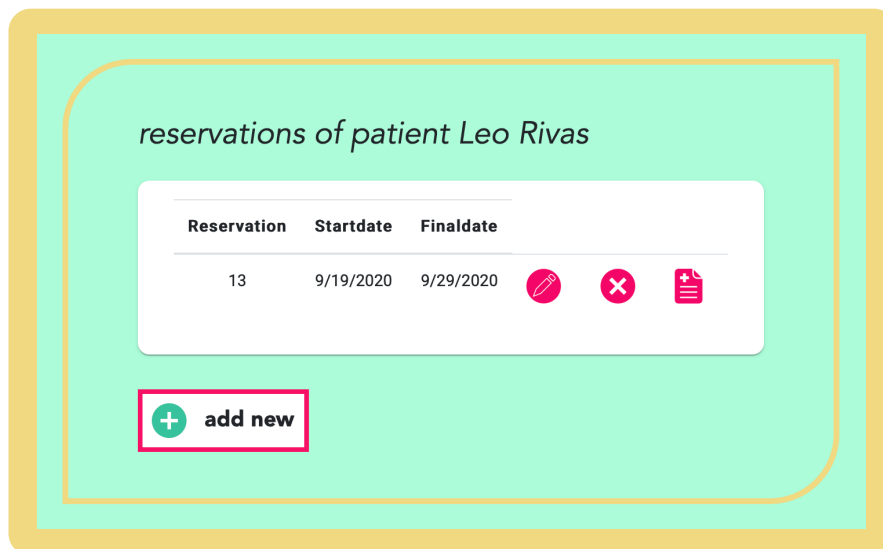

doctor dashboard view

The first card shows your currently assigned patients. Every row in the table corresponds to one individual patient. You may click or tap on each **red icon** to display a pop-up with specific information related to the selected row. Here's a quick summary of what all of the icons mean:

- Contacts 
 - Status 
 - Medication 
 - Pathologies 
 - Medical History 
 - Reservations 
- 

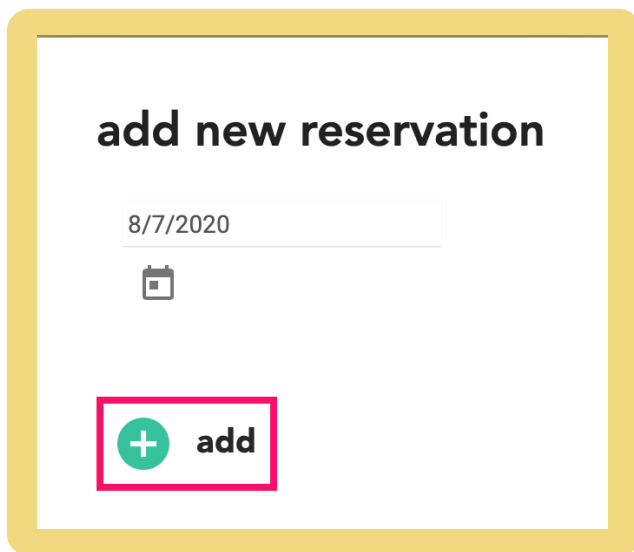

Click or tap on an icon and a pop-up window will open with the requested information, like on the picture below. Click or tap outside of the window to dismiss it.

example: reservations pop-up window

- To add a new element, click or tap on  **add new**.
- To edit an existing element, click or tap on  **edit**.

A form will open up requesting the new element's information.

add new reservation

8/7/2020

 **add**

add/edit reservation pop-up window

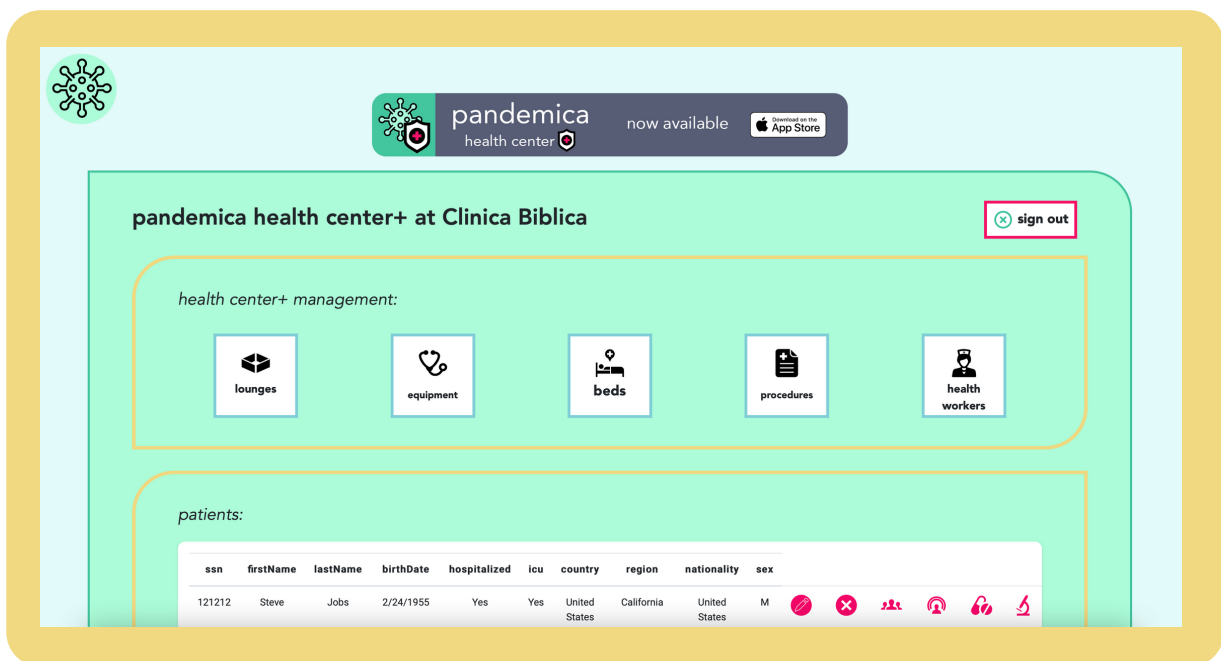

Fill the form. When you're done, click or tap on  **add** or  **edit**.

- Finally, to delete an element, click or tap  **delete**.

managing a health center+

HEALTH CENTER+ DASHBOARD

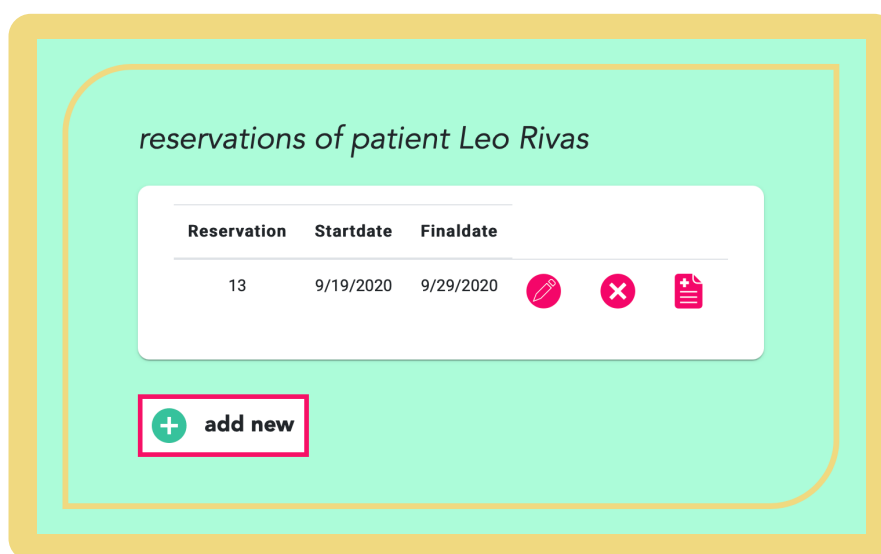

health center+ view

If you decide to subscribe to our **health center+** program, you'll get exclusive features for management. Starting with brand new things to manage. Now you can add, edit and delete **lounges**, **equipment**, **beds**, **procedures** and even **health workers**!

The first card shows patients assigned to your health center. Every row in the table corresponds to one individual patient. You may click or tap on each **red icon** to display a pop-up with specific information related to the selected row. Here's a quick summary of what all of the icons mean:

- Contacts 
 - Status 
 - Medication 
 - Pathologies 
 - Medical History 
 - Reservations 
- Add Patient 
 - Edit Patient 
- 

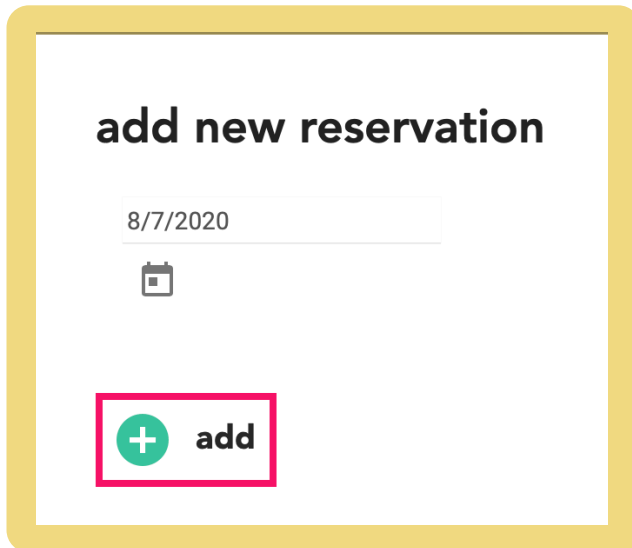

Click or tap on an icon and a pop-up window will open with the requested information, like on the picture below. Click or tap outside of the window to dismiss it.

example: reservations pop-up window

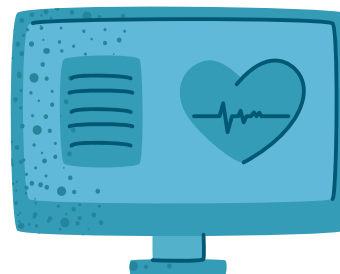

- To add a new element, click or tap on  **add new**.
- To edit an existing element, click or tap on  **edit**.

A form will open up requesting the new element's information.

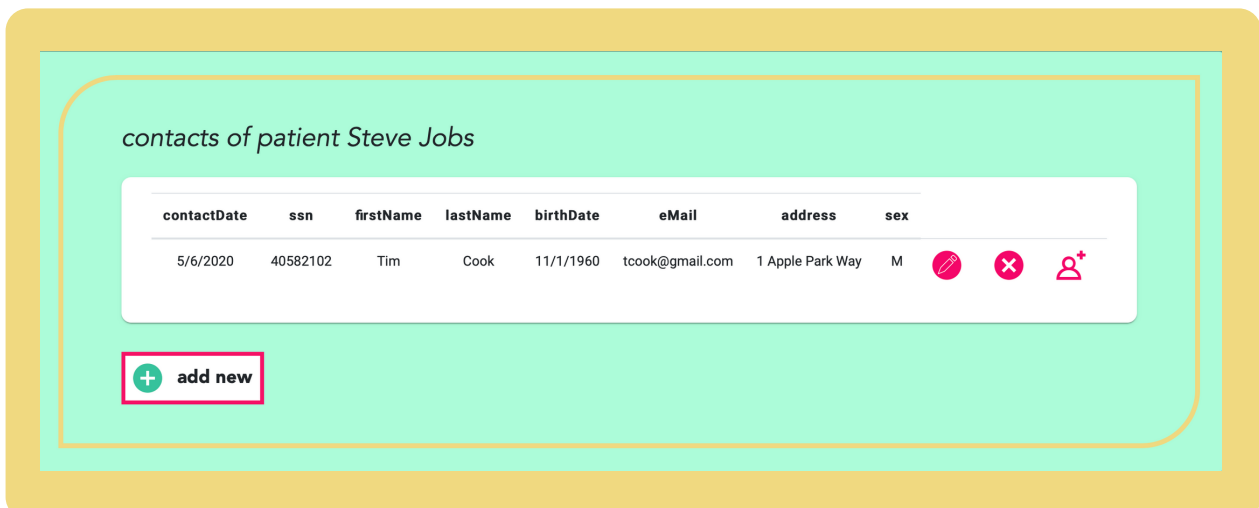

add/edit element pop-up window

Fill the form. When you're done, click or tap on  **add** or  **edit**.

- Finally, to delete an element, click or tap  **delete**.

The contacts tab has a very cool new feature for upgrading contacts to patients with one click. To get started click or tap the  **upgrade icon**

contactDate	ssn	firstName	lastName	birthDate	eMail	address	sex

add new

example: lounges table

Table controls are the same as shown for patient management. Actually, all of Pandemica's tables work pretty much the same way, in a very simple, efficient way.

- Click or tap on  **add new** to insert a new element.
- Click or tap on  **edit** to edit an element.
- Click or tap on  **delete** to delete an element.

A form will open up requesting the new element's information.

floor number

 **add**  **empty**

add/edit element pop-up window

Fill the form. When you're done, click or tap on  **add** or  **edit**

Finally, at the bottom of the page you'll find a card with all of the registered health center details, as well a small card to generate reports.

general information:

location: **Costa Rica, San Jose** bed capacity: **500**

name: **Clinica Biblica** ICU capacity: **50**

phone: **25221000** email: **apple@apple.com**

manager: **Ale Ibarra**

report generation:

- ☐ patients by status
- ☐ cases & deaths last week
- ☐ patient reviews

 **generate**

general information and report generation cards

For health centers with an active subscription to **health center+**, a new type of report is added: patient reviews. This report takes all of the registered feedback and wraps it up in a very nice PDF file with beautiful graphics that shows ratings in three main areas: **cleanliness**, **service** and **punctuality**.

We hope this report offers a way to improve upon the overall image and experience of your health center. After all, it's always nice to get a little bit of feedback for your job, to get an idea of how well you're doing.

To generate the report, select the **patient reviews** radio button on the report generation card, and click or tap on  **generate**.
